

ANTI-FOG SOLUTION

Don't let fog affect your sight during a scope procedure. Anti-Fog from Key Surgical is a perfect solution to help reduce condensation and fog on your laparoscopic, gastroscopic, arthroscopic, or endoscopic lens. The answer to a fog-free procedure has never been clearer.

ANTI-FOG SOLUTION:

- For procedures requiring the use of an endoscope device (e.g. laparoscopic, gastroscopic, arthroscopic, endoscopic)
- Foam pad (radiopaque) has adhesive backing for universal placement
- Sterile, ready-to-use
- Non-toxic
