

CUSTOM ORDER: SCOPE TAGS

Key Surgical® Scope Tags (ET1XX series) are designed for use in identifying process dates, ensuring that scopes are used within the appropriate time frame or sent for reprocessing. The Scope Tags are available in two different sizes, are double-sided, and available in 7 different colors for easy identification.

The Key Surgical Scope Processing Tag (ETXXX) is designed for use in recording critical information relevant to scope processing. It features a convenient location for affixing a barcode for additional tracking and offers an all-in-one communication on one side; expiry information on the other.

These tags may be customized to fit your specific needs. For current customization pricing, please contact your Sales Representative. Before submitting a customization request, please visit the website (www.keysurgical.com) to view our standard, stocked tags to see if they might be a fit.

The minimum order quantity is 50 packages (equivalent to 5,000 tags). They are packaged 100/pkg and include 1 lab marker.

Custom tags are subject to a one-time plate charge and set-up fee (not charged on subsequent orders). Customers agree to receive and pay for potential overage of + 10% of their final quantities.

To begin the order process, please fill out this custom order form and return it to STERIS by fax at 440.639.4450 or email at healthcarecs@steris.com. Include a valid email address or fax number so we can send a proof for your approval. The proof will be sent approximately 1 week after this form is received.

If you have any questions, please contact us at 800.541.7995 or healthcarecs@steris.com
