FOUR EASY WAYS TO PLACE AN ORDER WITH KEY SURGICAL
It's easy to place an order with us – we're available to take your order by telephone, fax, e-mail or EDI. If you would like a standard form to fax an order to us, simply visit keysurgical.com for a form that is easy to download.

1 EDI   **via GHX**

2 E-MAIL   **order@keysurgical.com**

3 TELEPHONE   **800.541.7995**

4 FAX   **952.914.9866**

TERMS OF PURCHASE
No minimum purchase required (customized products excluded). All shipments are FOB Eden Prairie, Minnesota, USA. Our No-Risk Return Policy, allows you to try our products for 30 days and return them if you are not completely satisfied. For full terms of purchase and our No-Risk Return Policy, please see Terms of Purchase on our website. All product returns are subject to a restocking fee. Approved credit terms are Net 30 from date of invoice.

We also accept Visa, Mastercard, and American Express. Although our prices are subject to change without notice, we take pride in offering competitive pricing.

1 TELEPHONE   **800.541.7995**

2 E-MAIL   **info@keysurgical.com**

3 WEBSITE   **keysurgical.com**

4 FAX   **952.914.9866**

FOR MORE INFORMATION
If you need more information, feel free to give us a call. Too busy to talk? You can always reach us by e-mail, fax or even snail mail if it suits you. Our knowledgeable customer service department is waiting to answer your calls on product questions. We have the answer or we'll find it for you. Or, if you prefer to get your information digitally, our website is designed to be a complete reference tool for you. You can always e-mail us with your questions; we respond to all e-mail inquiries within 24 hours. Give us a try – we look forward to hearing from you.

THE KEY SURGICAL STORY

Key Surgical was founded in 1988 by three entrepreneurial women with years of experience in both the nursing profession and the medical supply industry. Motivated by the growing need for a single-source supplier that would provide excellent customer service, the partners began building an extensive product line based on market need. The goal was to serve the varied needs of hospitals, surgical ambulatory, and outpatient centers as completely and as quickly as possible.

Over 30 years later, the same customer-driven principals and patient-focused values upon which Key Surgical was founded continue to guide everything we do. With over 3,000 of the highest quality products available to customers worldwide, Key Surgical is poised to continue to be a compassionate industry leader for years to come.

OUR MISSION

Our mission at Key Surgical is three-fold. First, to hire and retain good people who understand that nothing happens until a customer decides to buy something from us. Second, to grow by providing the quality products, value and service that our customers want, when they want them. And finally, to be good citizens by providing a rewarding and fun place for employees to work and sharing the benefits of our growth with the community in which we operate.

A NOTE ABOUT QUALITY

There are no shades of gray in the medical marketplace when it comes to quality. Key Surgical is committed to manufacturing and distributing the highest quality medical products, and to maintaining the highest level of compliance to FDA and ISO regulations. Nobody can claim to be perfect, but we strive to continuously improve our processes and systems so that we will always be closer to perfect tomorrow than we are today.

LETTER TO OUR CUSTOMERS

Thank you for being our customer and for allowing us to be your trusted partner for products and solutions for your sterile processing department. Customers vote with their purchasing decisions, and we know that to earn your vote, we need to continue to set the standard for quality, customer service, and value.

Our customer base of hospitals, GPOs, surgery centers, and distributors continues to expand to over 10,000 locations in the United States and in 70 other countries around the world. We're committed to continuously making substantial investments in our products, quality system, regulatory and compliance efforts, and operations with the goal of being the easiest company to do business with. Our goal, as it was over 30 years ago when Key Surgical was founded, is to supply you with the products you need, deliver them when you want them, and support you with personalized customer service. Although seemingly simple, focusing on delivering an exceptional experience with us every step of the way is, and will continue to be, the foundation of why we do what we do.

Our mission has three simple parts and we hold ourselves to be true to it every day. First, we will hire and retain good people who understand that our business exists because customers decide to buy something from us. Second, we will grow by providing the quality products, value, and service that our customers want, when they want them. Finally, we will be good citizens by providing a rewarding and fun place for employees to work as well as sharing the benefits of our growth with the community in which we operate. Combine our mission with our steadfast focus on improving patient safety and positive patient outcomes through products and education and you have what makes up Key Surgical.

Our entire team works hard every day to be recognized by you as a company of dedication, honesty, and integrity. In striving toward that recognition, we promise to keep our feet planted firmly on the ground and to make sure we brighten both your day and ours in the process. If we can ever be of assistance to you please call or email us directly. Businesses grow because they do the right things for their customers and their employees. We intend to keep doing those things and to keep growing, and we truly appreciate your business and thank you for continued support.

Sincerely,

Scot Milchman
Chief Executive Officer

Brian O'Connell
President and Chief Operating Officer

TABLE OF CONTENTS
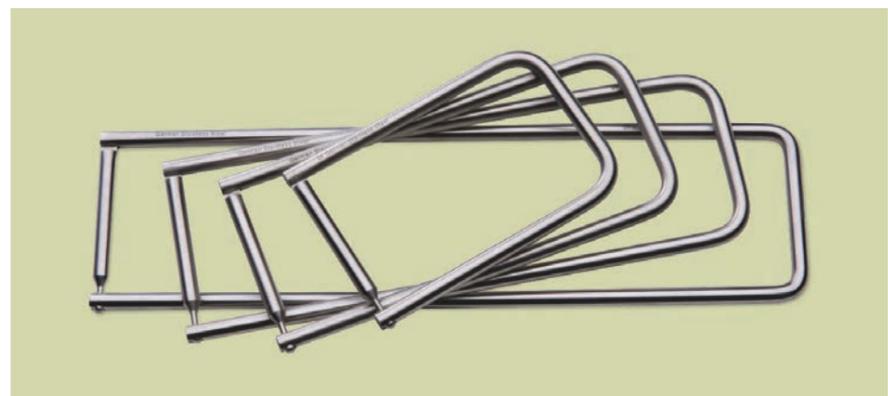

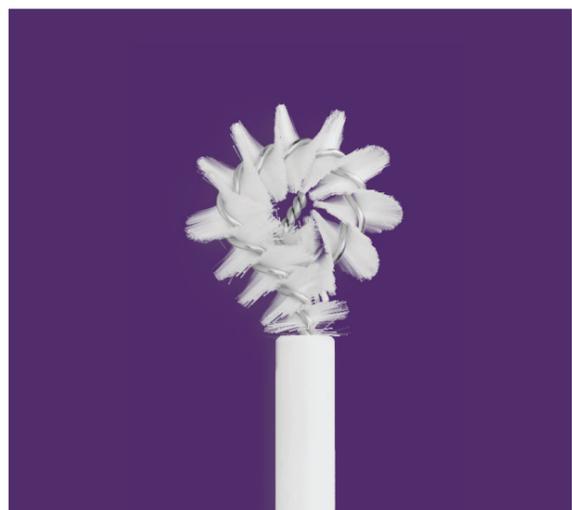

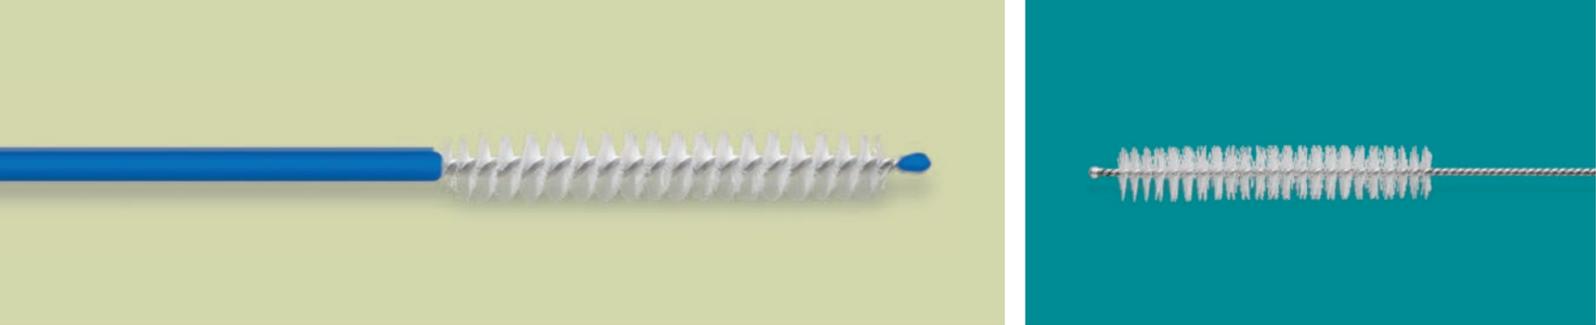

K KEYSURGICAL®

PLEASE NOTE: Unless specified, all products are not made with natural rubber latex.

PROP 65 Warning Disclaimer: Please review item information at keysurgical.com for the most up-to-date Proposition 65 warning information.

INSTRUMENT CLEANING

The Key Surgical Instrument Cleaning line is designed to provide you with the tools needed to clean your surgical instruments. In addition to our wide variety of cleaning brushes, we also offer enzymatic solutions to help improve the decontamination process.

With bristles available in nylon, brass, polypropylene or stainless steel, we also provide an incredible variety of lengths and diameters to fit your needs.

For organization of your cleaning brushes, our brush organizer is perfect for hanging in the department. Our stainless steel organizer is easy to keep clean and helps your team choose the right brush in a more efficient manner.

With our vast assortment of brushes - from channel cleaning to endoscope cleaning to sterilizer cleaning - we can help you match the right brush to the right cleaning task at hand.

Please note: Unless specified, all products are not made with natural rubber latex.

DR. WEIGERT NEODISHER® PRESTOP
Dr. Weigert PreStop is intended for use as a corrosion inhibitor for spraying onto surgical instruments in operating rooms directly after use. Promotes the practice of point-of-use cleaning in the O.R. Protects stainless steel instruments and keeps them moist until further reprocessing can be done. Non-aerosol spray.

Number	Details	Quantity
DI-442647-12	25.4 fluid oz	12/case

DR. WEIGERT NEODISHER® MULTIZYM
Dr. Weigert MultiZym is a multi-enzymatic detergent with protease, lipase, and amylase. It is intended for use for the manual cleaning of thermostable and thermolabile instruments, including MIS and micro instruments, dental instruments, flexible endoscopes, anesthetic equipment, containers, and other medical utensils in immersion and ultrasonic baths.

Number	Details	Quantity
DI-442735	1.32 gal	1/pkg

EFFERZYME™ - EFFERVESCENT CLEANING TABLETS
EfferZyme cleaning tablets are made from biodegradable, non-chlorine ingredients that contain fast acting protease enzymes. These neutral pH tablets enhance the removal of blood and other soils that may be resistant to chemical detergents, while still being delicate enough on instruments. May be used as an ultrasonic cleaning solution or an instrument presoak.

Number	Quantity
IC-2152	52 tablets/box

A LITTLE BIT ABOUT...

Brian O'Connell

Job Title: **President and Chief Operating Officer**

Do you collect anything? If so, what? And why? **I collect a logo golf ball from every different course that I have the opportunity to play. I've been doing this for over 25 years.** What is your favorite golf course in the U.S.? What about international? **In the US, it's Pacific Dunes on the Oregon Coast. Internationally, it's a toss-up between two Scottish courses; The Old Course in St. Andrews or Kingsbarns.** What cheers you up? **Talking with my kids and really good comedy. Sometimes they're one in the same.** What are your top 3 favorite movies? **Glengarry Glen Ross, Caddyshack, and The Empire Strikes Back.** What is your favorite meal/food? **A good pizza is always at the top of the list, but sushi can give it some strong competition.** What's your favorite recreational activity? **Golf and Boating; can't pick a winner between the two.** Who inspires you? **Great scientific thinkers such as Einstein and Hawking.** What is something you've always wanted to try but have been too afraid to? **Skydiving.**

A LITTLE BIT ABOUT...

Scot Milchman

Job Title: **Chief Executive Officer**

What is something you've always wanted to try but been too afraid to? **Paragliding.** What 3 historical characters would you invite to dinner? **Lincoln, Einstein, & Socrates.** What are some causes you care about? **Causes that help support and improve the lives of those with disabilities and underprivileged children.** What cheers you up? **Just about everything.** If you could be any age for a week, what age would it be and why? **90. Why not experience something I haven't before?** What would the title of your autobiography be? **Life's Too Short for Terrible Wine.**

Instrument Cleaning

STERILIZER CLEANING BRUSH
Brush allows for greater reach and cleaning ability. Bristles are at a forward angle to loosen soil without marring surface.

A

Number	Details	Dimensions	Quantity
BR-5000	double-surface brush, polyester bristles	6" x 5" brush head, 31" overall length	1/pkg

STERILIZER CLEANING BRUSH HANDLE
White plastic threaded handle for use with BR-5400.

B

Number	Details	Overall Length	Quantity
BR-5200	threaded handle, plastic	36"	1/pkg

STERILIZER CLEANING BRUSH - SCRUB HEAD
Solid white plastic block eliminates bacteria build-up and won't crack, chip, or sliver. Flare-head design assures thorough cleaning action from any angle. Handle sold separately.

C

Number	Details	Dimensions	Quantity
BR-5400	flare-head brush, nylon bristles	5.5" x 9.5" brush head	1/pkg

PISTOL-GRIP BRUSH
Soak-proof design with pistol-grip handle. Crimped nylon bristles on a block handle that resists chipping and cracking.

D

Number	Bristle Length	Bristle Area	Overall Length	Quantity
BR-4000	2"	4" x 4"	8"	1/pkg

STERILIZER DRAIN CLEANING BRUSH - WITH PLASTIC HANDLE
White nylon bristles, stainless steel wire and soak-proof plastic handle.

E

Number	Details	Dimensions	Quantity
BR-5500	long-handled brush, nylon bristles	1.37" diameter, 28" overall length	1/pkg

STERILIZER DRAIN CLEANING BRUSH - WITH STAINLESS STEEL HANDLE
Designed for cleaning out drains, lines, and openings. Stainless steel wire with stiff, crimped nylon bristles. Loop handle.

F

Number	Details	Dimensions	Quantity
BR-5600	drain/line brush, nylon bristles	2" diameter, 24" overall length	1/pkg

STERILIZER CLEANING BRUSH ASSORTMENT
Assortment includes 1 of each of the following items.

Number	Details
BR-6099	BR-5000, BR-5200, BR-5400, BR-5500, and BR-5600
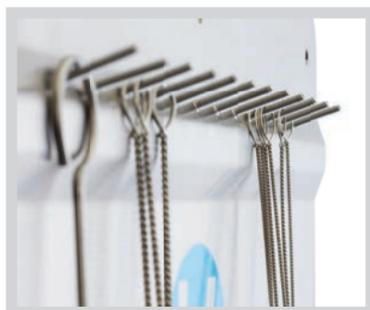

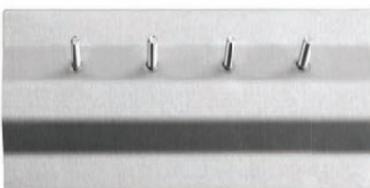

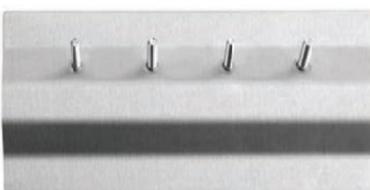

TWO BARS INCLUDED IN BR-7000.

SHOWN IN USE. BRUSHES NOT INCLUDED.
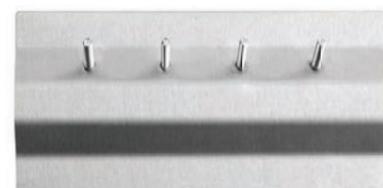

BRUSH ORGANIZER
Stainless steel organizer with a built-in drip tray. Includes 12 permanent pegs and 2 additional pegged bars (4 pegs per bar). For easy organization and storage display of cleaning brushes.

Number	Details	Quantity
A BR-7000	16" x 35" (1.33' x 2.91') wall-mounted organizer	1/pkg

BRUSH ORGANIZER WITH BRUSH ASSORTMENT
B BR-7100   wall-mounted organizer with Original Brush Assortment

Assortment includes 1 package of the following brushes:

BR-18-062	BR-18-087	BR-18-105
BR-18-125	BR-18-250	FT-18-500
N-2100	N-2121	S-2100

PEGGED BAR FOR BRUSH ORGANIZER
Customize your organizer to fit your needs. Stainless steel bar with 4 pegs. Adhesive-backed for universal placement. Bar measures 1" wide by 5" long.

Number	Details	Quantity
C BR-7050	pegged bar with adhesive backing	1/pkg

FRENCH CATHETER SCALE
Convenient two-sided french catheter scale with built-in 6" ruler.

Number	Details	Quantity
D MJ-370	plastic card with die-cut holes	4/pkg
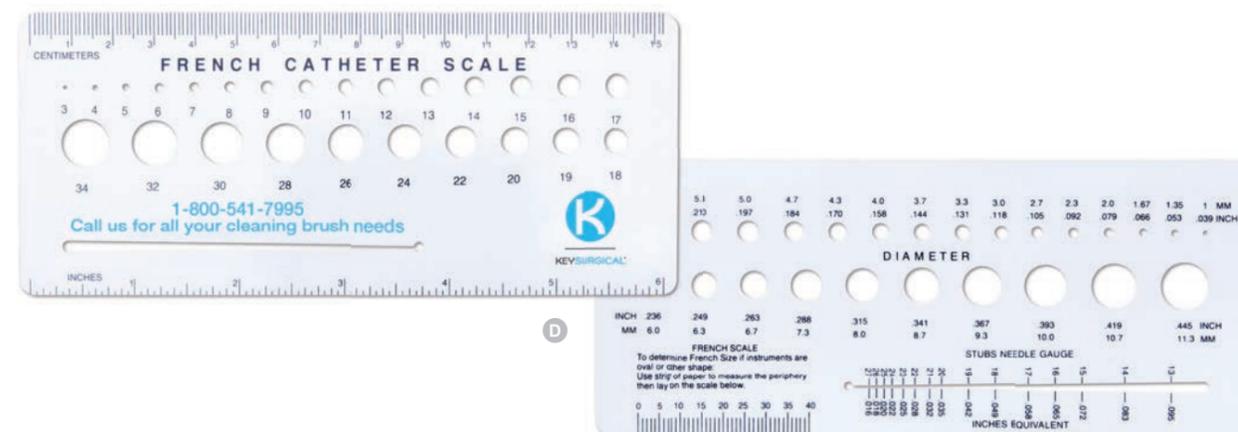

INSTRUMENT PROTECTION

Instrument Tip Caps are designed to extend the life of your instruments. Our tip caps protect your valuable instruments from unnecessary wear or damage, helping reduce repair costs while giving you the peace of mind that your instrument investment is being protected. In addition to protecting and extending the life of your valuable instruments, tip caps also help to protect sterilization packs from puncture and protect employees from sharp instruments.

Available in a variety of shapes and sizes to fit all your instrument protection needs, we have the perfect tip cap for each of your various instruments – from skin hooks to scissors to osteotomes – and they are available with or without vents, depending on your preference.

Our tip caps are radiopaque, single use, and compatible with steam sterilization.

Instrument Sleeves are designed to protect various delicate instruments using an easy-to-fold design. Sleeves are single use, and compatible with steam and gas plasma sterilization.

Duraholder® Instrument Protection System (IPS) is available in several configurations to fit your instrument protection needs within a closed container or set. Duraholders help you organize and prepare your various instruments for steam sterilization in one convenient pouch.

DID YOU KNOW?

We believe that in addition to having the right products at the right time in your department, a vital part of the journey to improving patient safety and positive surgical outcomes is continual education. Key Surgical delivers training and education for industries of sterile processing, operating room, and endoscopy. While we are known for providing education in-person through in-services or at regional/national conferences, our Education Program is also online-based and CEs (continuing education credits) can be earned for participation. Whether you're on the go or on the job, we'll help you customize a learning pathway that tracks your progress and helps you work smarter not harder. Registration is free and so are the credits. From cutting edge to basic education, you can access our ever-growing library through our website or the Key Surgical Education App.

TAGS

Locking Tags are designed to help you identify your instruments, trays, and carts as they move from sterilization to staging areas to procedures. Our tags allow you to indicate special handling instructions, secure trays, and carts from tampering and quickly identify priority instruments for repair and sterilization. Tags are available in a wide range of styles, colors, and locking configurations. Printed tags with special handling instructions, as well as uniquely numbered tags, are available as a standard product. Need a customized tag? We can do that for you!

Breakaway Tags are also available in a range of colors and can be written on with a permanent lab marker. They must be cut or broken to open, providing a secure lock.

Write-On Tags and Smart Tags allow you to write specific handling instructions on each tag when more detailed communication is necessary. These tags attach to instruments and trays with ties and are larger and more visible than our other tags, ensuring that detailed instructions will be seen by all. Smart Tags include detachable barcodes for even easier follow-up.

Scope Tags are designed specifically with the needs of scope processing and care in mind. Perfect for recording important details and available in seven bright colors for easy color-coding. Attached loops make for a convenient one-piece tag.

Metal Tray Tags easily clip onto the edge of a tray and provide ample space for identification, tracking and barcoding needs. Stainless steel for durability.

IDENTIFICATION TAPE

Our Identification Tape is designed to help you organize and identify instruments as they move between sterile processing and various departments. Using tape can help save you time, effort, and money by offering effective organization and identification of your surgical instrumentation. It is easy to apply and is compatible with steam sterilization. We have the broadest selection of tape available and it is colorful, easy to use, and economical.

Roll Tape is available in nine solid colors and three widths, while our Sheet Tape is available in over 250 colors and patterns. We are happy to help you customize your own identification tape as well!

Adhesive Remover is designed to dissolve tape residue on instruments, trays, basins, and other surfaces. Adhesive Remover is CARB compliant and biodegradable. Available in either (1) 32oz bottle or a case of (6) 4oz bottles. Features a citrus-scent.

Roll Tape

PERSONAL PROTECTIVE EQUIPMENT

Face Shields are available in several styles to fit the preferences of every individual. We offer full and short face shields, face shields with masks, with Tyvek™ expanders, with ties and with ear loops. All of our face shields offer different types of protection.

Barrier Gowns and Sleeves are lightweight, comfortable, and breathable.

Sterilizer Mitts are available in terry cloth or silicone. Cloth mitts provide you with a steam barrier for removing hot trays and racks from the sterilizer and are available in two lengths to protect most arm sizes. Silicone mitts are waterproof and heat resistant up to 480°F.

Nitrile gloves are powder-free, available in three lengths (9", 12", 24"). The 9" gloves have micro textured fingertips designed to increase dexterity and functionality and are incredibly durable. Our 24" nitrile gloves offer the most protection. They are treated with an antibacterial and anti-mildew agent and are also reusable.

Cleanroom Coveralls, Bouffant Caps, Masks, Beard Covers, and Shoe Covers are designed for use in cleanroom environments.

Adhesive Mats are designed to effectively capture dirt and dust particles from foot traffic.

PLEASE NOTE: Unless specified, all products are not made with natural rubber latex.

FULL FACE SHIELDS

Vented foam headband for increased airflow and comfort. Anti-fog, anti-glare mylar polyester film shields. Single use.

	Number	Details	Quantity
A	4505	13" wide, 7.5" long, 1.625" wide foam headband	24/box
B	4506	13" wide, 9" long, 1.625" wide foam headband	24/box

FACE SHIELD WITH SPLASH GUARD

Vented foam headband for increased airflow and comfort. Anti-fog, anti-glare mylar polyester film shields with retractable Tyvek splash guard. Single use.

C	4509	13" wide, 5" long, 5" splash guard	24/box

SELECT SHIELD

Disposable shields with reusable frames. Vented foam headband for increased airflow and comfort. Anti-fog, anti-glare mylar polyester film shields. Shields are single use.

D	4610	7.5" select shield starter kit	40 shields, 8 blue frames/box
E	4620	5.75" select shield starter kit	40 shields, 8 blue frames/box
F	4600	replacement frames	20/box
G	4615	7.5" replacement shields	40/box
H	4625	5.75" replacement shields	40/box

Personal Protective Equipment
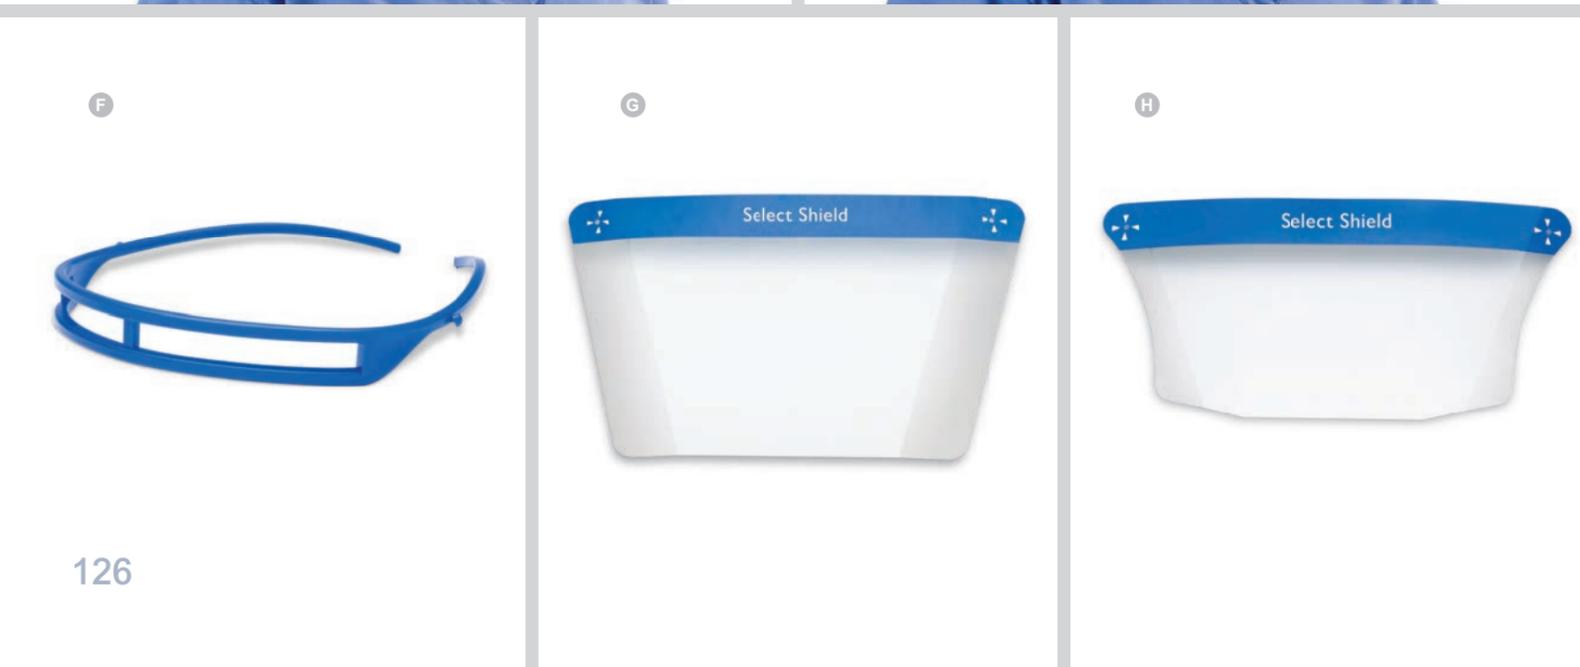

FOGFREE® MASKS WITH SHIELD

Fluid resistant outer layer with white facial tissue inner layer. Fog-free, non-woven barrier, distortion free wrap-around shield. Anti-glare mylar polyester film shields. Convenient ear loops. Single use.

	Number	Details	BFE	PFE	Quantity
A	4508	blue mask with ear loops and shield	≥ 95% @ 3.0 micron	≥ 98% @ 0.5 micron	25/box
B	4517	blue mask with ear loops and shield	≥ 98% @ 3.0 micron	≥ 98% @ 0.1 micron	25/box

FACE MASK WITH SHIELD

Mask contains extra anti-fog foam strip and cellulose innerfacing with extra protection filter. Anti-fog, distortion free wrap-around shield. Anti-glare mylar polyester film shield. Form fitting ties. Single use.

	Number	Details	BFE	PFE	Quantity
C	4514	blue mask with fluid protection, anti-fog tie shield	> 99% @ 3.0 micron	99.4% @ 0.1 micron	25/box

1 - Bacterial Filtration Efficiency (BFE)

BFE is the effectiveness of a material to filter (prevent passage of) bacteria of a specified particle size, 3.0 μm (micron) ± μm. This is expressed as a percentage of a quantity that does not pass through the material.

2 - Particle Filtration Efficiency (PFE)

PFE is the effectiveness of a material to filter aerosol particles in the size range 0.1 μm to 5.0 μm.
This is expressed as a percentage of a quantity that does not pass through the material.

Personal Protective Equipment

BARRIER GOWNS
Lightweight and comfortable protection. Fluid resistant. Polypropylene with a polyethylene coating. Fully closed back with closure ties at neck and waist with soft cloth cuffs for extra protection. Gowns wrapped individually in plastic. Single use.

Number	Dimensions	Quantity
A	PS-110	40" (102cm) long	10/box
	PS-150		50/box
B	PS-160	57" (145cm) long	50/box
C	PS-170	63" (160cm) long	50/box

PROTECTIVE SLEEVES
Lightweight, strong, and durable. Sleeves are made from spun-bond polypropylene coated in polyethylene with elastic cuffs. Single use.

D	PS-52101	21" (53cm) long	200/box
	PS-51801	18" (46cm) long	200/box

STERILIZER MITTS - TERRY CLOTH
Built-in steam barrier for removing hot trays and racks from the sterilizer. Operates safely up to 500° F (260°C).

E	PS-3613	13" (33cm) long	1 pair
F	PS-3617	17" (43cm) long	1 pair

STERILIZER GLOVES - TERRY CLOTH
Built-in steam barrier for removing hot trays and racks from the sterilizer. Operates safely up to 250° F (121°C).

G	PS-3816	16" (39cm) long	1 pair
H	PS-3817	17" (43cm) long	1 pair

STERILIZER MITT - SILICONE
Waterproof mitt design allows firm grip for removing hot trays and racks from the sterilizer. Operates safely up to 480°F/ 248°C.

I	PS-3717	17" (43cm) long	1 mitt

PS-4801	xxxx-large	25/box

BOUFFANT CAPS

Made from non-linting, non-woven 100% spun-bond polypropylene, these lightweight, breathable caps feature unexposed elastic bands for secure fit and comfort. Single use.

PS-12101	21" (53cm)	1000/box
PS-12401	24" (61cm)	1000/box

BEARD COVERS

Designed for cool comfort while providing full coverage for cleanroom contamination control. non-woven 100% spun-bond polypropylene, these lightweight, breathable covers feature unexposed elastic bands for secure fit and comfort. Single use.

PS-21801	one size fits all	1000/box

CLEANROOM SHOE COVERS

Spun-bond polypropylene with stitched seams and anti-skid treads for safety. Single use.

PS-6502	x-large	300/box

ADHESIVE MATS

Designed to effectively capture dirt and dust particles from foot-traffic and equipment wheels before they enter a controlled environment. Each numbered layer of the mat peels off easily to reveal a new clean surface. Acrylic adhesive layers in the mat do not support microbial growth.

CR-32645-30	26" x 45"	120/box (30 mats/pad, 4 pads/box)

PACKAGING AND PREPARATION

Mesh Trays hold smaller items that are difficult to keep track of during cleaning and sterilization as well as larger items with small parts. Our Mesh Trays, Instrument Trays, Pans, and Covers are heavy-duty stainless steel, for a tough, clean, and corrosion-resistant surface.

Surgical Tray Corner Protectors can be used with various trays and containers to help prevent wrap tears and wet packs.

Instrument Stringers are available in a wide selection of sizes and closure types, including Ball & Socket, Spring Lock, Pull-to-Open, Center Lock, U-Shaped, T-Bar, and Stringer Stand. Our Instrument Stringer Stand allows for vertical placement of instruments. No matter what your closure or style preference is, our stainless steel stringers are durable and versatile.

Sterilization Wrap is designed for use with EtO and steam sterilization. Highly permeable and durable, the wrap has a consistent texture giving you visual detection of small pinholes and tears.

Need Tray Liners, Peel Pouch Sterilization Racks, Band Clamps, or a Silicone Finger Mat (that you can cut to size)? We have those too.

Instrument Stringers	Bowie-Dick Tests
Band Clamps	Tape Dispensers
Stringer Assistant	Silicone Finger Mat
Tray Liners	Plastic Sterilization Trays
Surgical Tray Corner Protectors	Mesh Trays
Wipers	Scope Baskets
Disinfectant	Perforated Mayo Trays
Lint Removers	Oblong Instrument Trays
Sterilization Pouches	High-Sided Perforated Trays
Peel Pouch Sterilization Racks	Instrument Trays and Flat Covers
Sterilization Wrap	Catheter Trays and Dome Covers

Please note: Unless specified, all products are not made with natural rubber latex.
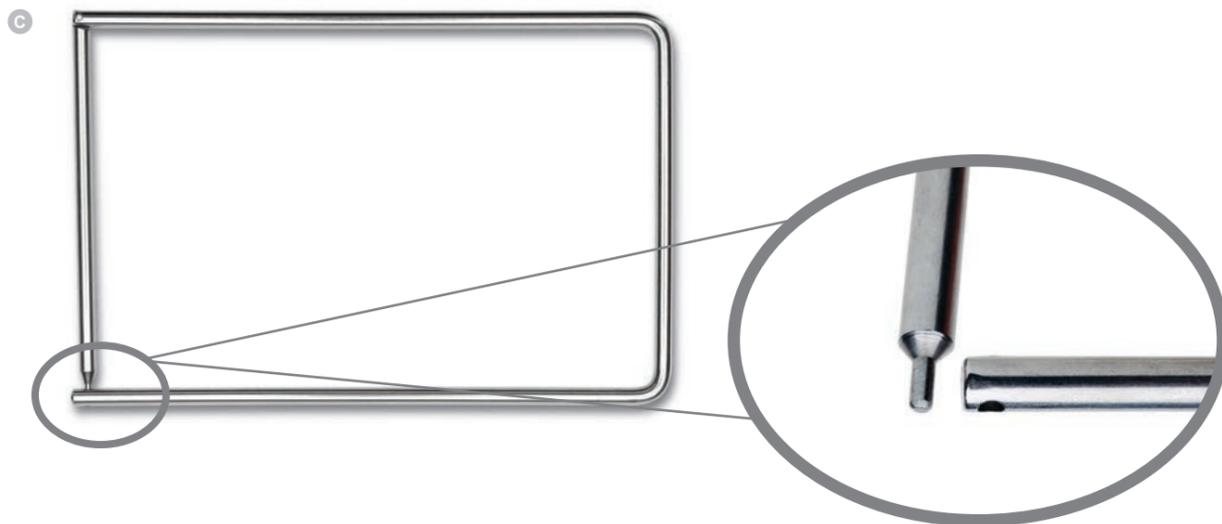

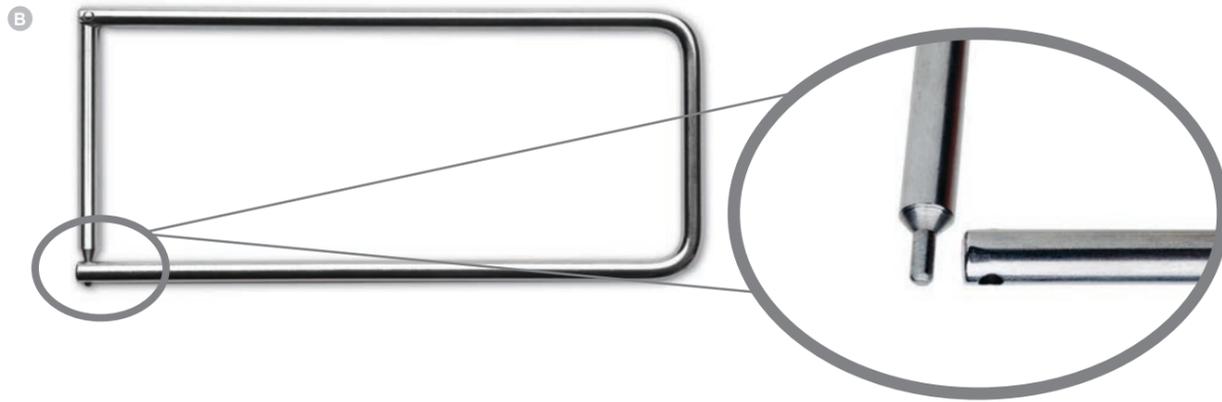

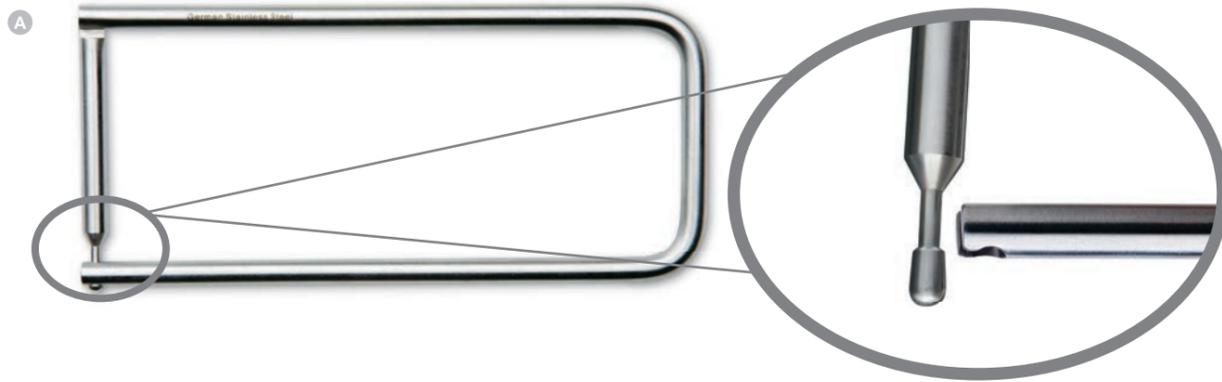

BALL & SOCKET

Highest quality German stainless steel stringers with stay-closed ball & socket design to prevent accidental opening. Expert hand-finishing eliminates sharp edges. To open or close, squeeze side bars together, then move cross bar.

Number	Length inches	Width inches	Length cm	Width cm	Quantity

Packaging and Preparation
T-BAR STRINGERS

Stainless steel. Expert hand-finishing eliminates sharp edges. Single bar stringer with a t-shaped stop at one end and a swiveling mechanism on the other that opens and locks shut. Designed for quick handling of instruments. May be used individually or in pairs.

	Number	Length inches	Length cm	Quantity
A	IS-7006	6"	15cm	1/pkg
B	IS-7008	8"	20cm	1/pkg
	IS-7012	12"	30cm	1/pkg

INSTRUMENT STRINGER STAND

Stainless steel. Designed for vertical placement of instruments within a tray.

	Number	Base Measurements	Height	Quantity
C	IS-62455*	2" x 4" x 5.25"	3"	1/pkg

STRINGER ASSISTANT

Designed to help with efficient instrument stringing. Features a tapered slot to firmly hold instrument stringers in a vertical position and an anti-skid bottom to keep it in place during use.

	Number	Details	Dimensions	Quantity
D	IS-675105*	white, acrylic, 7" tapered slot	10.25" x 7.5"	1/pkg

BAND CLAMPS

Instrument jaws need to be in an open position, and kept that way, during cleaning and sterilization. Band Clamps are a helpful tool for this, when an instrument stringer is not an option.

	Number	Color	Width	Quantity
E	IS-P0101	white	1.5"	1/pkg
F	IS-P0105	yellow	2"	1/pkg
G	IS-P0102	blue	2.25"	1/pkg
H	IS-P0104	red	2.75"	1/pkg

Packaging and Preparation

SURGICAL TRAY CORNER PROTECTORS – Single Use

Designed to be used on the corners of sterilization trays to prevent rips and tears of sterilization wrap. Compatible with steam sterilization. Single use.

	Number	Details	Dimensions	Quantity
A	CS-9125C	foam, blue	6" x 6" x 1.25"	80 sheets/pkg (4 pre-cut protectors per sheet)

SURGICAL TRAY CORNER PROTECTORS – Reusable

Designed to be used on the corners of sterilization trays to prevent rips and tears of sterilization wrap. Compatible with steam and gas plasma sterilization. Reusable.

B	CS-9113	medical-grade silicone, lime green	2.8" x 2.8" x 1.2"	80/pkg

TRAY LINERS

Designed to help prevent residual moisture in your trays and reduce the incidents of wet packs.

SUPER SANI-CLOTH®

A nonwoven disposable cloth for use on hard, nonporous surfaces. Cleans, disinfects, and deodorizes. 55% alcohol content. Effective in 2 minutes or less against 22 microorganisms.

Number	Dimensions	Quantity
DI-1160	6" x 6.75"	160 wipes/can (1 can/pkg)
DI-1160-12		12 cans/case

WALL MOUNT SANI-BRACKET

Adjustable Wall Mount Sani-Bracket for Large and Extra Large Sani-Cloth Wipes Canisters.

DI-1000		1/pkg

LINT REMOVER HANDLE AND LINT REMOVER REFILLS

Designed for heavy-duty hospital use.

MJ-012	60 sheets/roll	12 rolls/box
MJ-001	9" overall length	1 handle

POLYESTER WIPER

Designed for cleanroom duties. The wipes have ultrasonically sealed edges and are packaged in a controlled environment.

CR-20909	9" x 9"	150 wipes/pkg
CR-20909-10		10 pkgs/case

KIMBERLY-CLARK WYPALL™ - L40 WIPERS

Kimberly-Clark Wypall - L40 Wipers are a general-purpose wiper featuring Kimberly-Clark's unique base sheet technology. Durable ¼ folded wipes easily absorb liquids yet are soft enough to use on delicate surfaces. Sold by the case.

CR-21214	12.5" x 14.4"	56 wipes/pkg (18 pkgs/case)
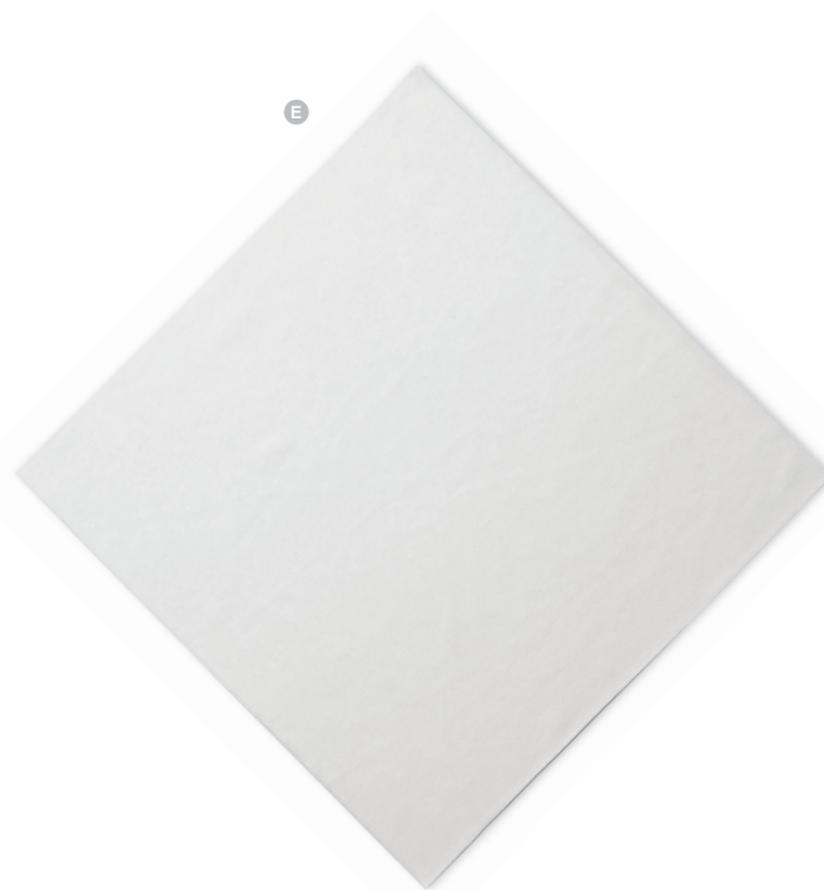

Packaging and Preparation
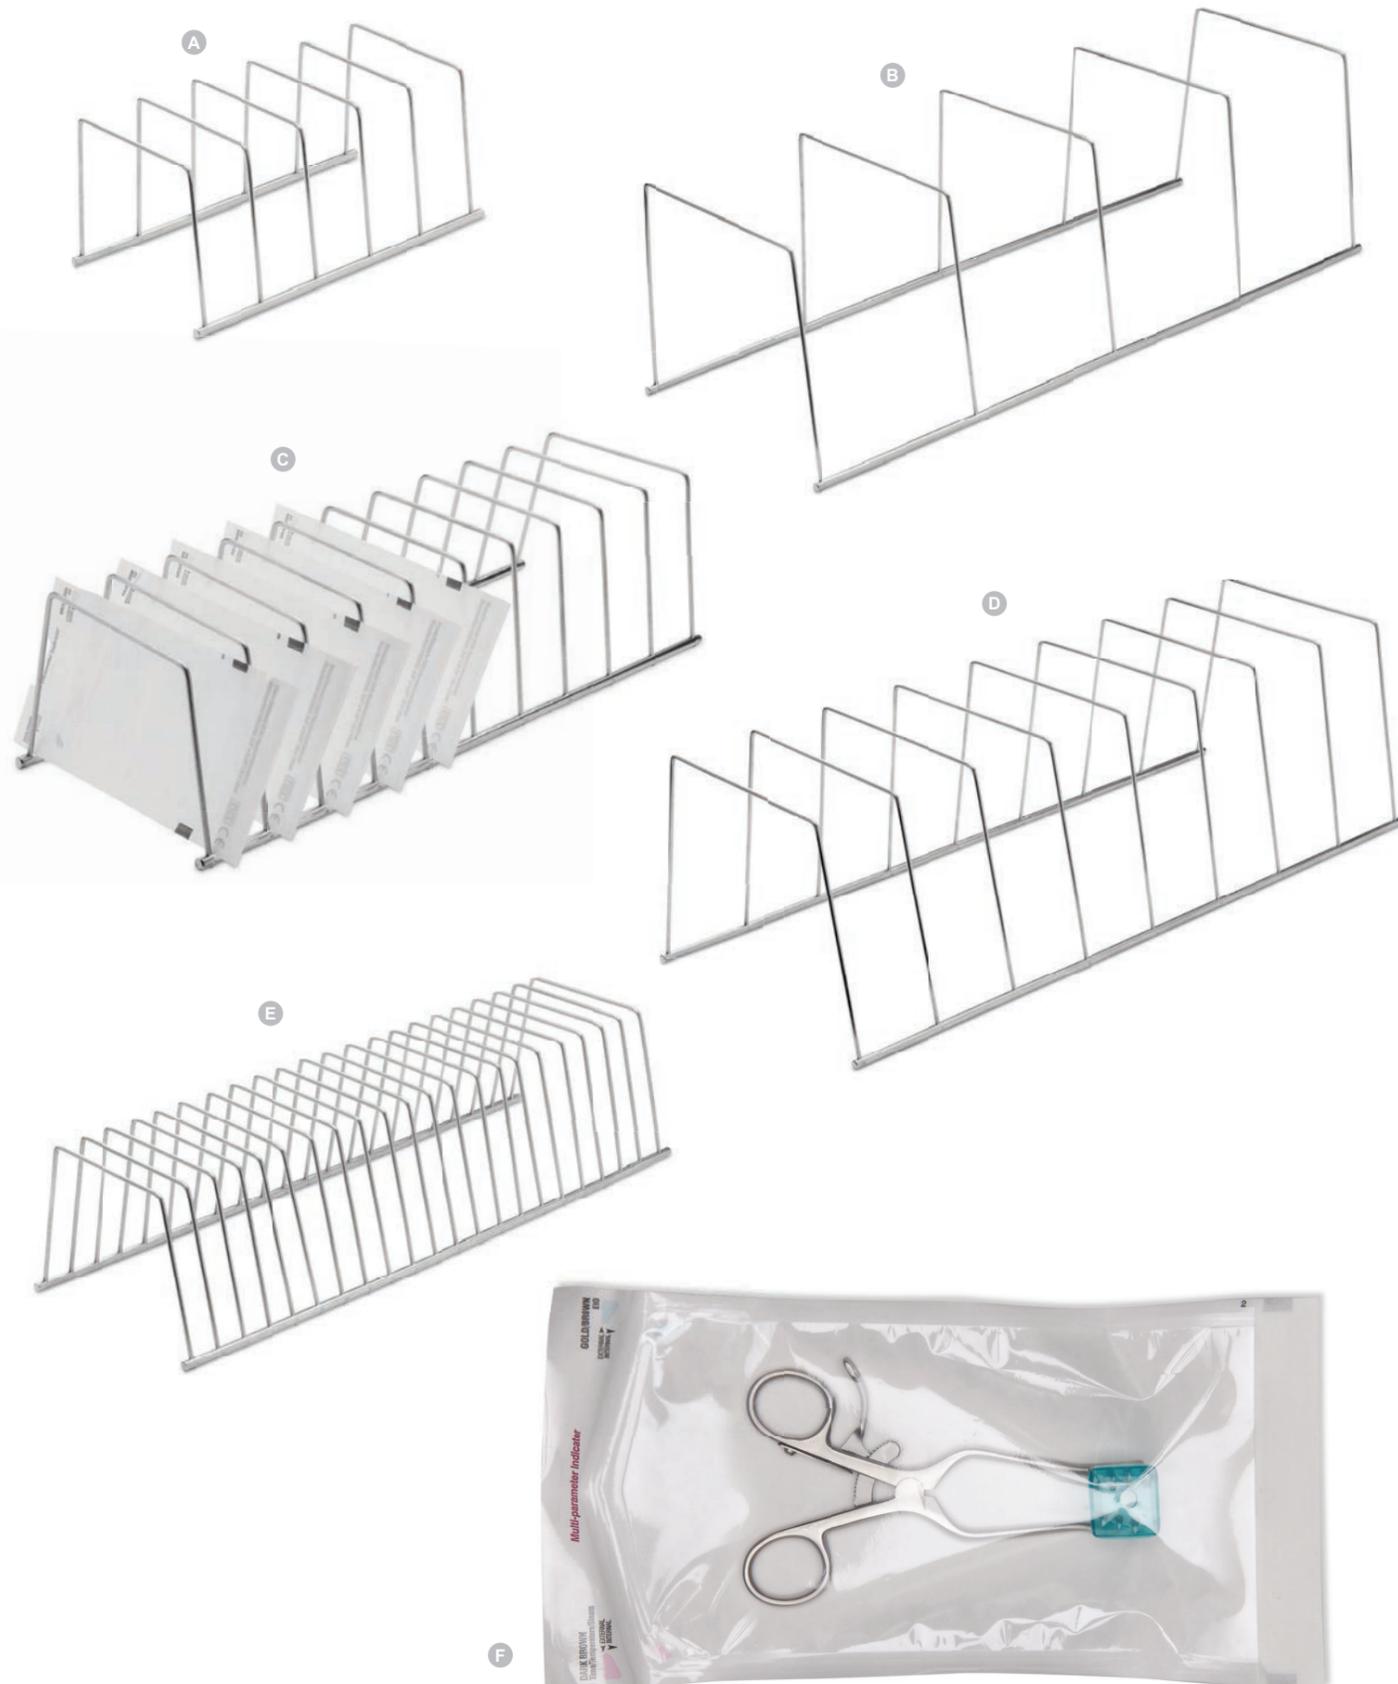

PEEL POUCH STERILIZATION RACKS

Designed to help keep peel pouches on edge while providing enough space for effective sterilant contact. These stainless steel racks feature slots for peel pouched items, aiding in efficient assembly and drying after steam sterilization.

	Number	Dimensions	Quantity
A	PR-090504-5	8.7" x 4.7" x 4", 5 slots, 1.5" apart	1/pkg
B	PR-210806-4	20.5" x 7.5" x 6", 4 slots, 5" apart	1/pkg
C	PR-150504	15.5" x 5" x 4", 10 slots, 1.5" apart	1/pkg
D	PR-210806-8	20.5" x 8" x 6", 8 slots, 2.5" apart	1/pkg
E	PR-160604-21	16.3" x 5.5" x 4", 21 slots, 0.75" apart	1/pkg

STERILIZATION POUCHES

Self-sealing sterilization pouches are made with both internal and external steam and EtO sterilization indicators. Sterilization indicators give the assurance of time, temperature, and pressure.

	Number	Dimensions	Quantity
F	CS-3553P	3.5" x 5.25"	200/box
	CS-3590P	3.5" x 9"	200/box

	CS-3030	30" x 30"	250/pkg
	CS-3636	36" x 36"	250/pkg
	CS-4545	45" x 45"	250/pkg
	CS-5454	54" x 54"	100/pkg

Packaging and Preparation

BOWIE-DICK TEST PACK – Reusable

Each test pack comes with 25 consecutively numbered test sheets, a Cube (top and bottom) and instructions for use. The metal clamp (sold separately) holds the indicator sheet in place and allows for the Lantor Cube to be placed directly over the drain. Certified to meet AAMI standards for daily use to evaluate the efficacy of air removal and steam penetration in pre-vacuum steam sterilizers. Reduces waste and inventory.

	Number	Details	Quantity
A	CS-BD001	Lantor Cube® Metal Clamp	1/pkg
	CS-BD025	Lantor Cube® Bowie-Dick Test Pack	25 tests/box

BOWIE-DICK TEST PACK – Single Use

Bowie-Dick Test Pack has instructions for use pre-printed on the box for ease of use and staff training. Test sheet is easy to read and interpret. Certified to meet AAMI standards for daily air removal and steam penetration in pre-vacuum steam sterilizers.

	Number	Details	Quantity
B	CS-BD030	Airview™ Bowie-Dick Test Pack	30 packs/case

TAPE DISPENSER

Heavy-duty metal frame with slip-resistant base. 3" core. Designed to hold and dispense Process Indicator Tape. Cuts tape quickly and evenly. Safety blade cover for user safety.

	Number	Details	Quantity
C	CS-DISP-10	holds single roll of 1" wide tape	1/pkg
D	CS-DISP-11	holds two rolls of 1" wide tape or one roll of 2" wide tape	1/pkg

Packaging and Preparation
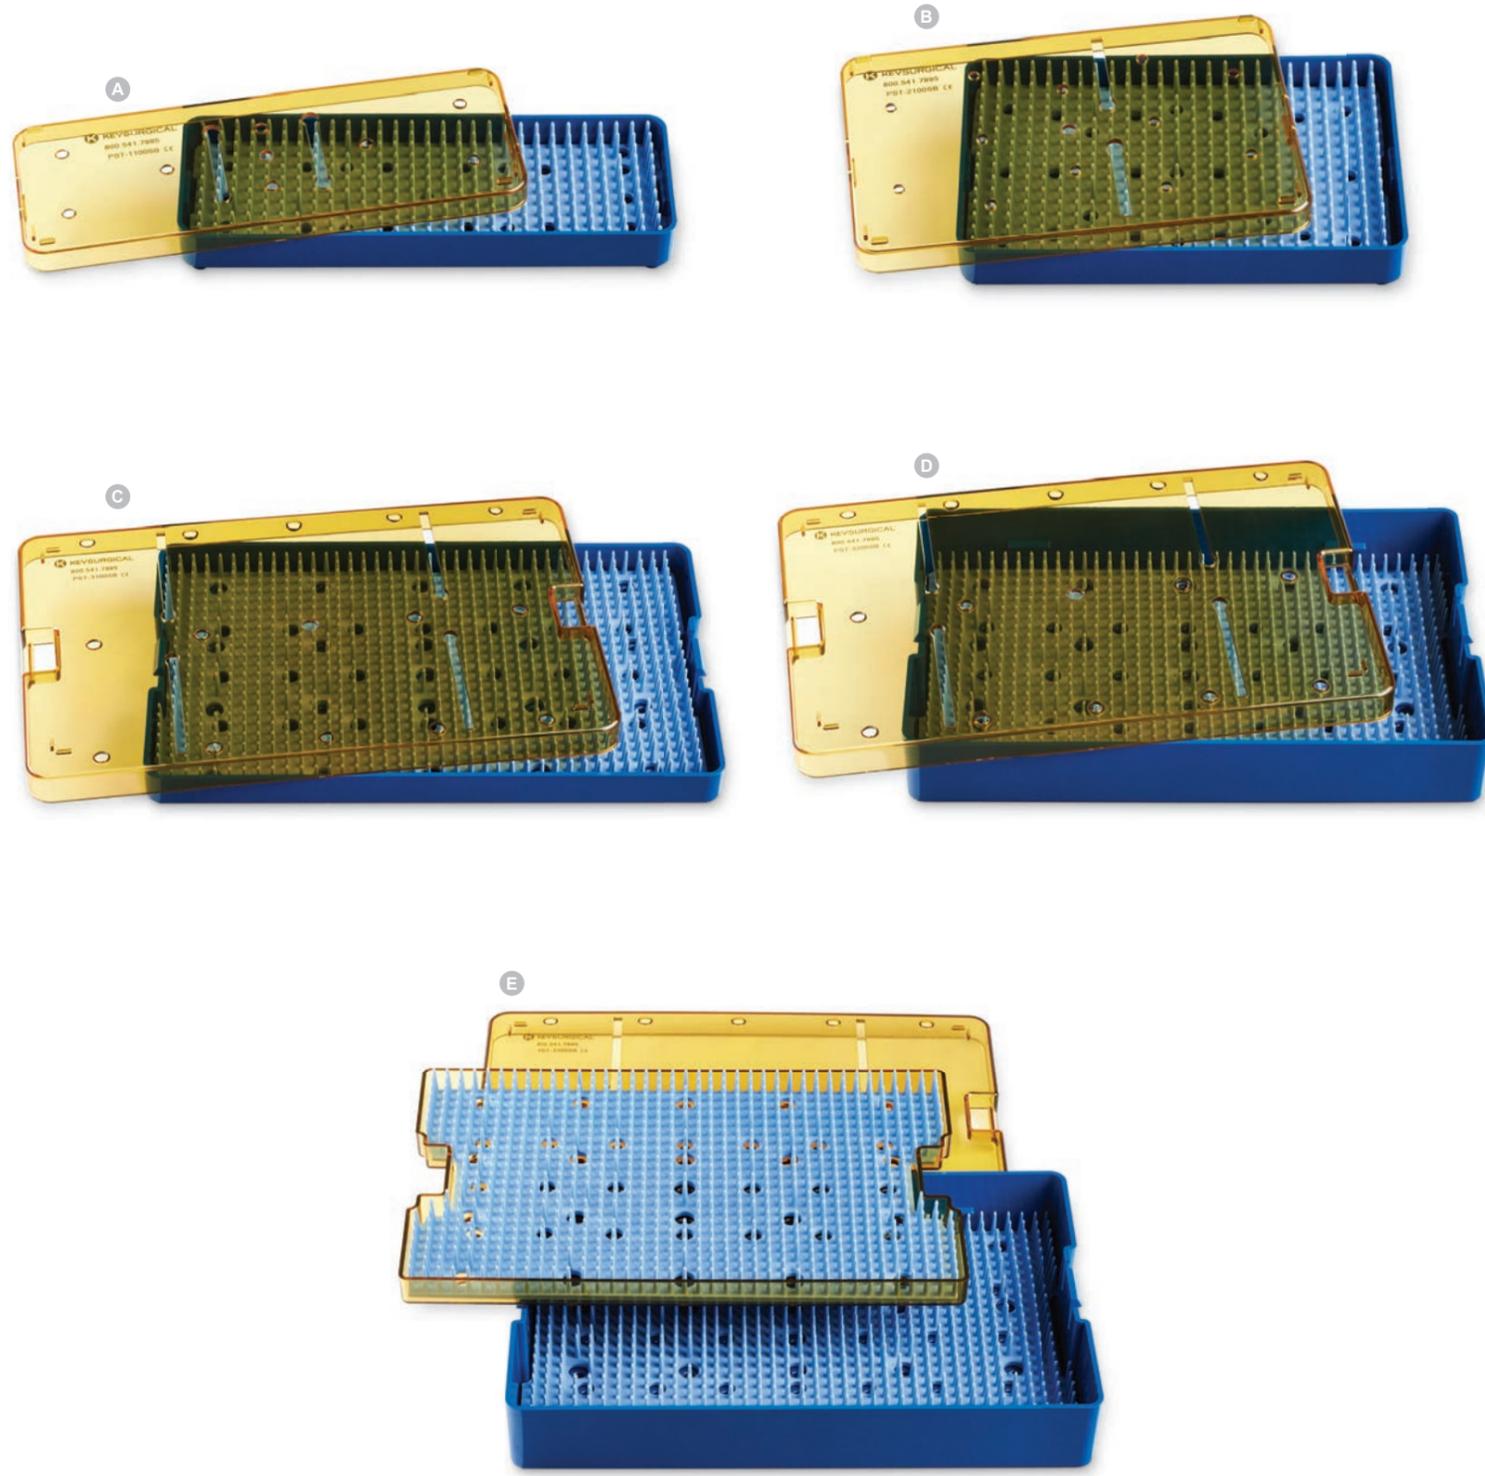

PLASTIC STERILIZATION TRAYS

Designed for use with smaller or delicate instruments during sterilization and storage. Medical-grade silicone finger mats help protect and organize instruments within the tray. Perforated, slotted base and lid assist with circulation of steam during sterilization. Raised nodes in base assist with easy removal of silicone mat when needed. Transparent lid allows for easy viewing of contents. Compatible with steam and gas plasma sterilization.

	Number	Details	Length	Width	Height	Quantity
A	PST-1100SB	tray base, silicone mat, lid	7.5"	2.5"	.75"	1/pkg

SILICONE FINGER MAT

Medical-grade silicone mat with raised fingers is designed to hold, organize, and protect surgical instruments within a tray during sterilization. This versatile product can be cut to size to fit your specific needs. Can be used with Mesh Trays or as mat replacements for Plastic Sterilization Trays. Compatible with steam and gas plasma sterilization.

	Number	Details	Length	Width	Height	Quantity
F	FM-1810	silicone finger mat	18.2"	10.2"	.75"	1/pkg

Packaging and Preparation
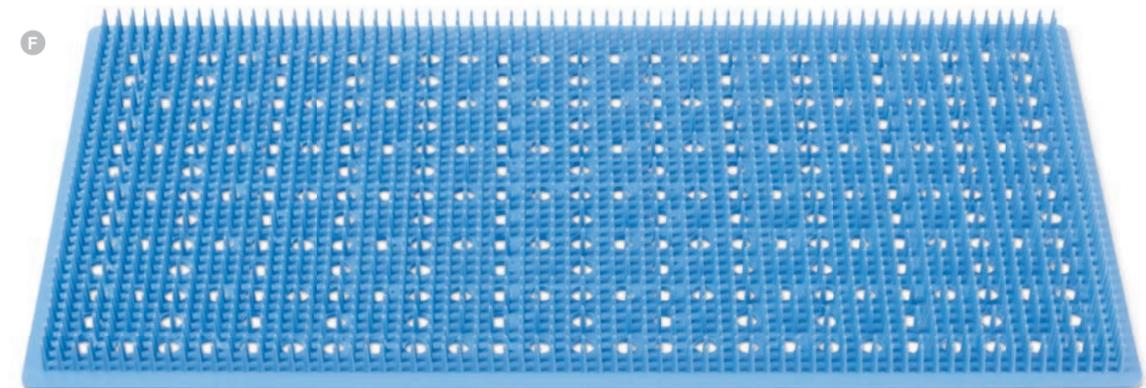

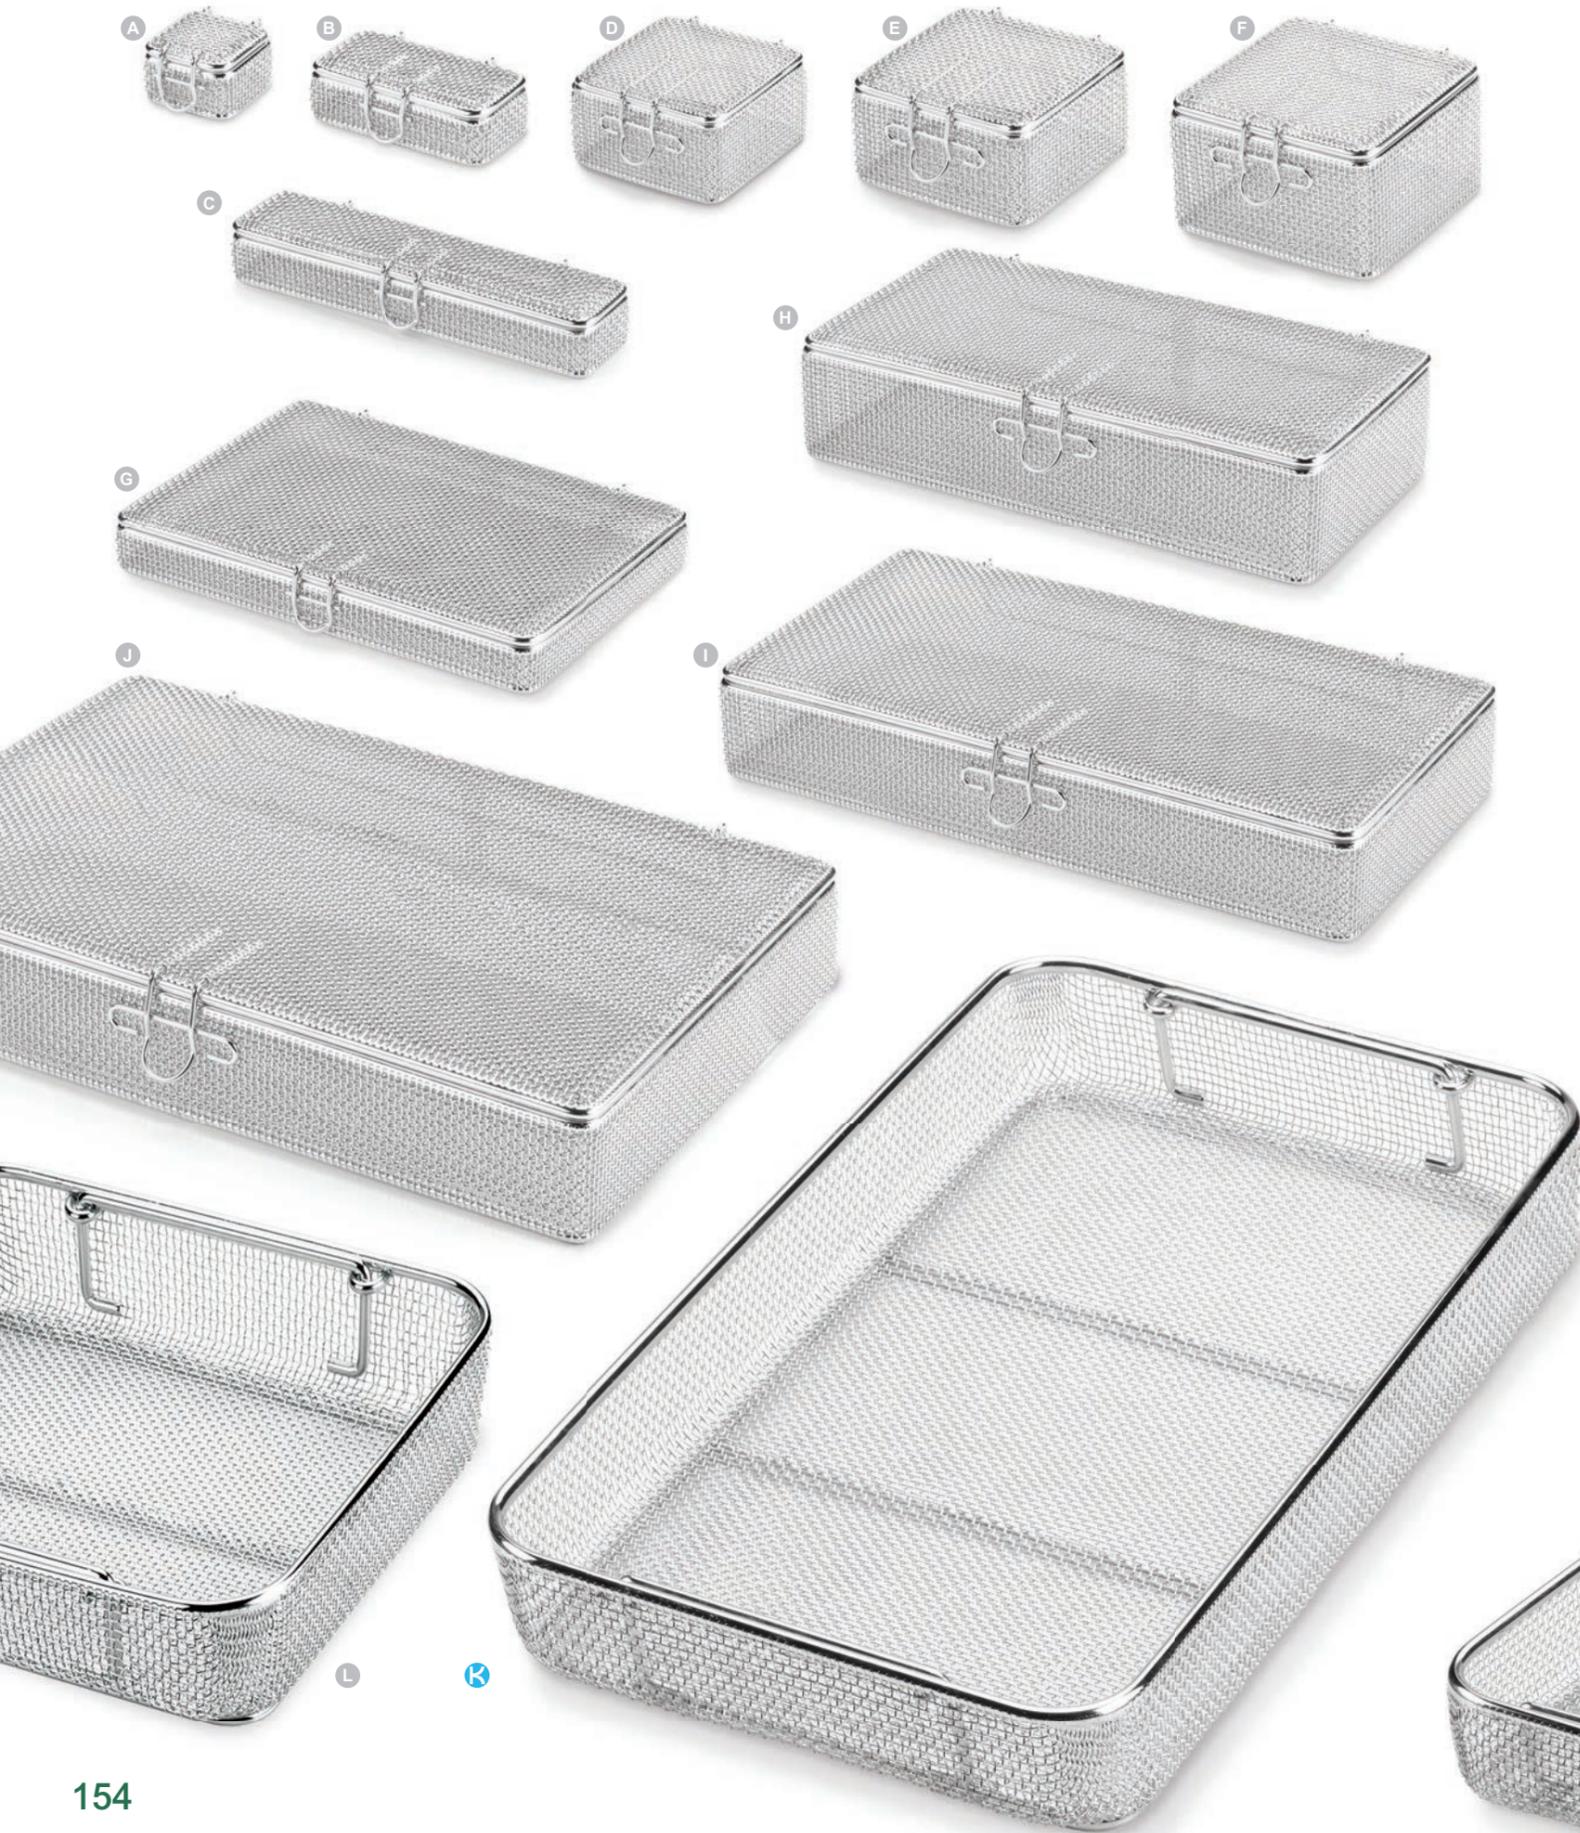

MICRO MESH TRAYS

Micro Mesh Trays are designed to hold smaller items during washing, sterilization, storage, and transportation. Micro mesh allows you to keep larger items that have small loose parts together. Micro mesh size is approximately 2mm x 2mm. Compatible with steam and gas plasma sterilization.

WIRE AND PIN MANAGEMENT

Key Surgical provides the highest quality and broadest selection of wires and pins for a variety of procedures. To support your management of this specialized inventory, we also have you covered with products to sterilize and dispense, cut, protect, and remove wires and pins.

K-Wires and Steinmann Pins are available in various diameters and lengths. Our high-quality wires and pins are made from certified implantable stainless steel and are precision ground in Germany.

Wire Dispensers and Racks are designed to be used during sterilization of wires and pins as well as dispensing them in the operating room during a procedure. Whether you prefer single or multiple chamber dispensers or racks that can fold open to a tabletop position in the O.R., we've got what you need.

Cutting, protecting, and then removing wires and pins requires a variety of tools. We've got you there too.

K-Wires and Steinmann Pins

K-Wire and Pin Covers

K-Wire Dispensers

Sterilization Racks

K-Wire Ruler and Pin Gauge

Wire and Pin Cutters

Pliers

Twist Drill Bits and Drill Rack

Please note: Unless specified, all products are not made with natural rubber latex.

K-WIRES – DOUBLE TROCAR
Available in various lengths and diameters. Made from certified medical-grade stainless steel. Sold non-sterile.
6 wires per tube, 1 tube per package.

Wire and Pin Management – Sterilization Racks & Pin Gauge

STERILIZATION RACKS

Sterilization racks are designed for use during washing, sterilizing, storing/transporting, and dispensing K-wires and Steinmann Pins. The racks are lightweight but made to withstand repeated use. They fold closed for sterilization and easily open to convert to a table top stand for use in the O.R. Dimensions are clearly marked on the rack to assist with quick identification.

K-Wire and Pin Rack

	Number	Details	Dimensions	Quantity
A	KI-71-RACK	anodized aluminum, holds 9" K-wires and pins	12.5" x 5.25" x 1.5"	1/pkg
		Holds 6 of each of the following diameters:	(32 x 13 x 3.8cm)	

.028" (.7mm)	.045" (1.1mm)	.062" (1.6mm)
.093" (2.4mm)	.125" (3.2mm)	.156" (4.0mm)
.035" (.9mm)	.054" (1.4mm)	.078" (2.0mm)
109" (2.8mm)	.140" (3.5mm)	.177" (4.5mm)

K-Wire Rack

	Number	Details	Dimensions	Quantity
B	KI-71-RACK-46	anodized aluminum, holds 4-6" K-wires	6.25" x 4.125" x .75"	1/pkg
		Holds 6 of each of the following diameters:	(15.9 x 10.5 x 1.9cm)	

.028" (.7mm)	.045" (1.1mm)	.062" (1.6mm)
.035" (.9mm)	.054" (1.4mm)	

K-WIRE RULER AND PIN GAUGE

Measure 16 sizes of K-wire and pin lengths in inches, millimeters, and centimeters as well as diameters. Made from 420-series stainless steel with .025" thickness for durability.

	Number	Details		Quantity
C	KI-39-710	6.75" (17.1cm) ruler		1/pkg
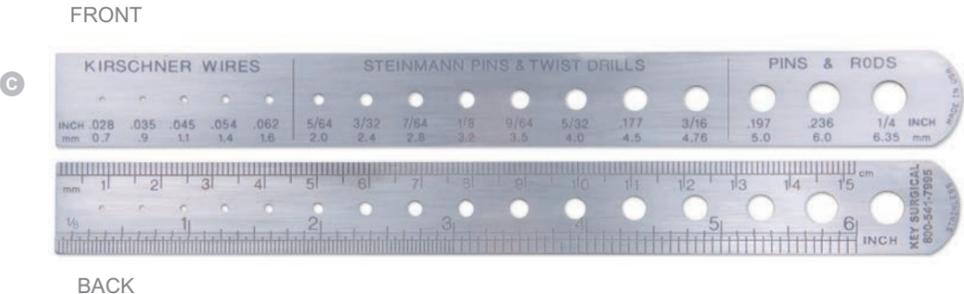

K-WIRE AND PIN COVERS

Post-surgical covers for protruding wires and pins. Plastic sheaths act as a guide for easy use. Available in twelve different sizes. Sold sterile or non-sterile. NS designates non-sterile. Compatible with steam and gas plasma sterilization. Single use.

INSTRUMENT TRACKING

Key Surgical's KeyDot® is a highly effective and affordable solution for tracking individual surgical instruments beyond the tray level. KeyDot is an easy, and economical way to get the most from an asset tracking system and to maximize your return on investment. It can be used to track specialty, high-value, or peel-pack items on an individual basis. Whatever the application, KeyDot helps provide increased efficiency, accuracy, and productivity in tray assembly, general instrument identification, instrument inventory status, and management.

The KeyDot is a small, laser-etched, 2D Data Matrix barcode label that can be applied directly to an instrument's surface. Tested for sterilization efficacy and biocompatibility for use on stainless steel surgical instruments, it has been conveniently incorporated
into most of the instrument tracking software applications available today.

With the KeyDot there is no specialized training or intricate equipment needed so application can be done on-site, eliminating the hassle of sending your instrument sets out for this tracking solution.

KEYDOT IS EASY

With the KeyDot there is no specialized training or intricate equipment required. Applying a KeyDot to a surgical instrument is quick and easy: simply clean, lift, place, and press. The instrument then needs to be sterilized to cure the adhesive and assure firm adhesion.

❶ clean application area

❷ lift KeyDot from sheet

❸ place KeyDot on instrument

❹ apply firm pressure and sterilize to secure adhesive

HOW DOES KEYDOT WORK?

The KeyDot works like a license plate. It links a specific instrument to a data file within a software application, allowing that instrument to be tracked throughout the complete instrument processing cycle. Instruments marked with the KeyDot are scanned using a two-dimensional barcode reader. Scanners and software applications not available through Key Surgical.

THE KEYDOT IS EFFICIENT

KeyDot provides you with the convenience to decide what to mark and when to mark it – you're in control. Since there are no equipment requirements or complicated procedures and training involved, instruments can be marked with a KeyDot on a continuous basis by anyone in your department, starting with critical instruments and expanding at an individual pace.

Instrument Tracking

FREQUENTLY ASKED QUESTIONS

How long will our KeyDot last?

KeyDot labels will remain readable for at least 200 processing cycles or two years, whichever comes first. The radial design of the KeyDot means there are no corners to lift up. The Data Matrix barcode is also highly redundant – even if up to 60% of the barcode is destroyed, the KeyDot is still readable. The KeyDot is designed to withstand harsh environmental and temperature conditions. If a KeyDot needs to be replaced, anyone can do it at a convenient time in a matter of seconds. And at around fifty cents per dot, the KeyDot remains an easy, efficient and economical way to mark instruments for the life of the instrument.

Is the KeyDot safe for our surgical instruments?

Yes. A licensed, independent medical testing laboratory has scientifically evaluated the KeyDot and found that the instrument surfaces under the KeyDot are completely sterilized during processing.

Do I have to program the KeyDots with my own numbers?

No. All KeyDots are manufactured and shipped with a unique number. We guarantee that there will be no duplicate numbers in the labeling sequence. Custom sequences can also be requested. Simply apply the KeyDot and easily link it to the appropriate data file in your software application.

How many characters are allowed on each KeyDot?

Human readable equivalents appear on the 1/8" and 3/16" KeyDot (up to 15 characters) and on the 1/4" and 3/8" (up to 17 characters).

KEYDOT GUARANTEE

Key Surgical guarantees that our KeyDot labels will remain readable for at least 200 processing cycles or two years, whichever comes first. Simply send us the supporting documentation from your instrument tracking system and we will replace, free of charge, any KeyDot that does not meet our performance benchmark.

KEYDOT

Alphanumeric barcodes are laser engraved on .003" destructible acrylate. 2D Data Matrix. Black background with white copy. Pressure-sensitive acrylic adhesive. Label copy includes barcode and human readable equivalents on the 1/4" and 3/8" KeyDot. 100 KeyDot labels per sheet.
