KEY SURGICAL IDENTIFICATION TAPE

Our Identification Tape is designed to help you organize and identify instruments as they move between sterile processing and various departments. Our tape will help save you time, effort and money by offering effective organization and identification of your surgical instrumentation. It is easy to apply and withstands repeated sterilization cycles. And as always, our tape is not made with natural rubber latex. We have the broadest selection of tape available and it is colorful, easy to use and economical.

Roll Tape is available in nine bright colors and three widths, while our Sheet Tape is available in over 250 colors and patterns to meet all your identification needs. We are happy to help you customize your own identification tape as well!

Adhesive Remover is an instrument-friendly solution that makes it easy to remove identification tape. It is environmentally safe and California Air Resource Board (CARB) compliant, with no hazardous solvents or toxic fumes. It dissolves adhesive residue quickly and easily and restores instrument surfaces to their original condition.
