

IDENTIFICATION TAPE

Key Surgical® Identification Tape is designed to help you identify and organize instruments as they move between sterile processing and various departments. It's easy to apply and withstands repeated sterilization cycles. With the broadest selection of tape available, and the ability to customize your identification tape, you will have a colorful, economical, easy-to-use solution for instrument identification.

"Instrument tape and plastic dipping material, when used properly, are ways of identifying specific instruments."

-ANSI/AAMI ST79:2017, Section 7.4.1
