

TRAY TAGS

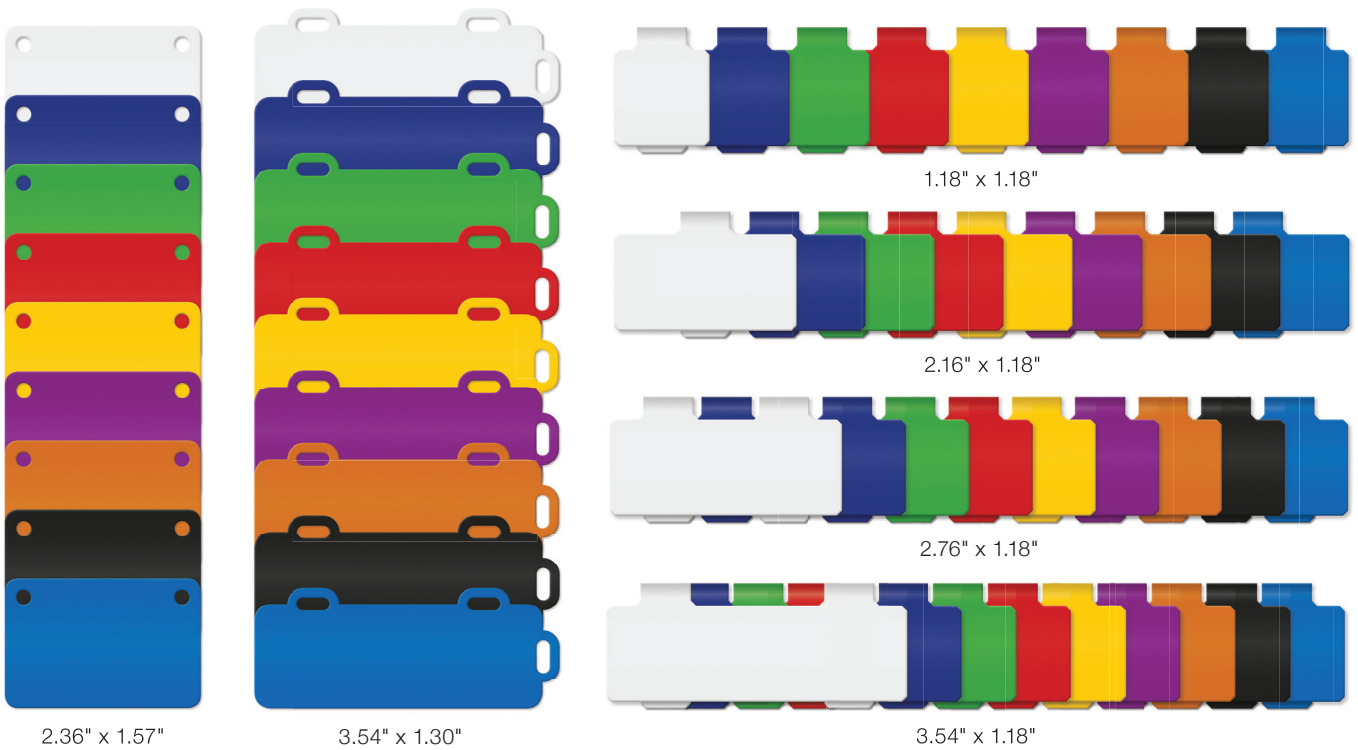

When trays are flying between departments, Key Surgical plastic tray tags help to keep everyone up to speed. These durable tags attach securely to mesh trays for quick and easy color-coded identification and also provide a flat surface to affix barcodes. They're available in nine colors and six sizes. Crystal clear communication has never been this colorful.

ABOUT:

- Durable, plastic tags designed to attach to trays
- Two styles (either built-in clip on back or requires a fastener to attach)
- Provides flat surface for placement of barcodes
- Compatible with steam, gas, and EtO sterilization
