

SMALL WONDER®

Flexible Endoscope Channel Cleaning Brush

The **Small Wonder cleaning brush** is a specialized brush for the smallest and most delicate endoscope channels. Suited for cleaning the balloon inflation channel of EUS scopes, tiny channels of select bronchoscopes, choledochoscopes, and other small instrument channels ranging in size from 1.0mm to 2.25mm.

FOR CHANNEL
SIZES
1.0MM - 2.25MM

- Available in lengths of 160cm or 230cm
- Flexible nylon bristles set on a non-slip, braided wire shaft to help with a steady grip
- Stainless steel cap at the end of the bristles is designed to help protect against scratches or damage as the brush moves through the channel
- Barbell handle at the end of the brush with grooves for grip
