

SOAKER SHEETS

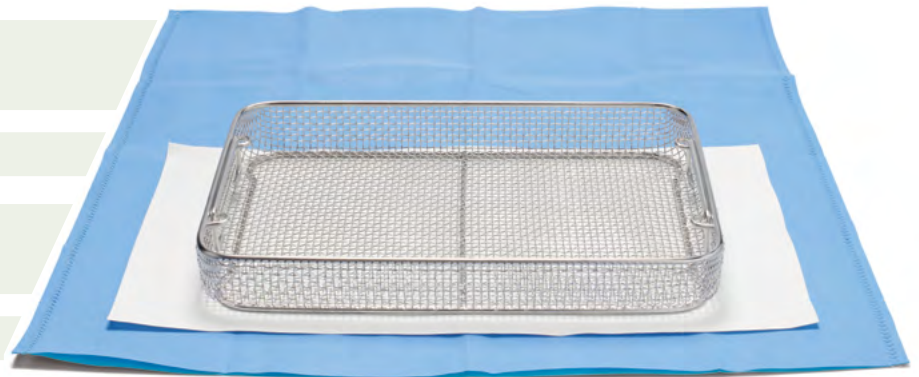

Key Surgical® Soaker Sheets are specifically designed for heavy duty use, such as reprocessing orthopedic sets which can be the most challenging for **packaging integrity** and **wet packs** due to weight.

- Designed for **use with heavier trays** (such as orthopedic trays) that are more prone to condensation challenges
- Provides rapid **absorption of condensate** during sterilization to help prevent wet packs
- Available in various sizes
- Manufactured with low chloride and sulfate content
- Free from optical dyes
- Compatible with steam and EtO sterilization
- Single use

"Absorbent tray liners can absorb condensation and reduce the incidents of wet packs."

-ANSI/AAMI ST79:2017

Product No.	Description	Dimensions	Quantity
SOK006A	Soaker Sheet, cellulose, 140gsm	250mm x 250mm (9.84" x 9.84")	800
SOK003A	Soaker Sheet, cellulose, 140gsm	305mm x 610mm (12" x 24")	400
SOK002A	Soaker Sheet, cellulose, 140gsm	500mm x 375mm (19.70" x 14.76")	200
SOK010A	Soaker Sheet, cellulose, 140gsm	500mm x 914mm (19.70" x 36")	96
SOK008A	Soaker Sheet, cellulose, 140gsm	560mm x 1219mm (22" x 48")	100
SOK009A	Soaker Sheet, cellulose, 140gsm	560mm x 1524mm (22" x 60")	100
SOK001A	Soaker Sheet, cellulose, 140gsm	750mm x 500mm (29.53" x 19.70")	96
