

VR[®] SLEEVE GLOVE

Personal Protective Equipment

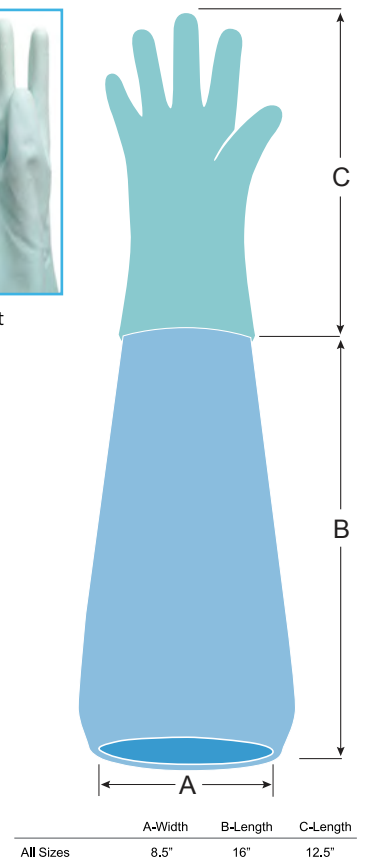

Protect your arms and hands during manual cleaning with a VR Sleeve Glove. This PPE is a unique fusion of a durable nitrile glove and a protective sleeve and at 28" long, provides complete hand and arm protection. You don't have to compromise comfort for durability with the VR Sleeve Glove; it's durable to protect against a broad range of chemicals, yet flexible so it works *with you*, not the other way around.

- **Complete, durable hand and arm protection** through a unique fusion of a 15 mil, lined nitrile glove and a 6 mil protective sleeve
- **Overall length of 28"**
- **Comfortably flexible** with high tactile sensitivity
- **Elastic cuff** for adjustable positioning on upper arm
- **Meets or exceeds OSHA Level D** chemical protective apparel requirements for splash protection
- **Resistant to a broad range of chemicals** including hydrofluoric, hydrochloric, and sulfuric & nitric acids
- **Pairs are individually packed** for quick and easy use
- **Made in the USA**
- **Not made with natural rubber latex**
- **Available in sizes XS, S, M, L, XL** (see size chart on back for glove sizing)

Lined for comfort
