

# ADHESIVE REMOVER

Getting rid of tape residue from surgical instruments, trays, basins, tags, etc. can be challenging if you don't have the right product for proper removal. We know your instruments deserve the best treatment and that's where our newly formulated adhesive remover comes in. We've cleared things up (pun intended) and made tape removal a bit more enjoyable.

### ABOUT:

- Safely removes identification tape and any remaining tape residues from surgical instrumentation, basins, trays, and other surfaces
- Colorless, liquid adhesive remover
- Citrus-based formula for a pleasant scent during use
- Plant-based formula
- Packaged 6 bottles/box for easy placement throughout the department
- Each individual bottle is 250ml (8.45oz)
