

TWIST DRILL RACK

Twist Drill Rack from Key Surgical® is a perfect solution to managing your orthopedic twist drill bits. The rack is designed to hold 5" drill bits, up to 13 at a time, ranging from 1.5 to 5.0mm in diameter. Folds closed for convenient reprocessing but opens up to a tabletop position for easy use in the O.R.

ABOUT:

- Durable, OR-grade stainless steel
- Holds 13 drill bits ranging from 1.5 - 5.0mm diameter
- Drill bit diameters are marked inside rack for easy identification
- Opens to tabletop stand for the O.R. and folds closed for sterilization, storage, and transportation
- Compatible with steam sterilization
- Reusable
